Worksheet 1

Comprehension

Read the passage carefully. Answer the question.

Sea turtles live in oceans. There are seven different types of sea turtles. Most sea turtles have hard shells on their backs. The only sea turtle that does not have a hard shell is the leatherback turtle. It has a leathery skin instead of a shell. Sea turtles spend their whole lives in the water. The only time most sea turtles go to the shore is to lay their eggs. When it is time for the mother turtle to lay her eggs, she uses her flippers to dig a hole. This hole will be the nest. Most sea turtles lay about 100 eggs at a time. Baby sea turtles hatch after about two months under the sand.

A. Answer the questions in one/two words in the given space.

1. Where do sea turtles live?
